

SATVIK KHANDAL

Ai/ML Enthusiast

+91-7023033362 | khandalsatvik@gmail.com | linkedin.com/in/satvikkhandal

Summary

AI/ML enthusiast with a strong foundation in Data Structures & Algorithms, Competitive Programming, C++, Java, and Python. Passionate about building intelligent applications, solving complex algorithmic problems, and continuously exploring Machine Learning, Generative AI, and modern software development.

Skills

Programming Languages: C++, Java, Python, JavaScript, SQL

Web Technologies: HTML, CSS, Tailwind CSS

AI/ML: Machine Learning, Generative AI, NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn

Databases: MySQL

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems (OS), Computer Networks (CN)

Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook, Render, Vercel

Experience

Intern

June 2026 – July 2026

Monarch Network Capital Limited

Tools Used: Python, Selenium, Pandas, Excel

- Automated collection of electricity market data from NSE and MCX using Python and Selenium, reducing daily manual retrieval time from roughly 30 minutes to under 5 minutes.
- Built an end-to-end pipeline integrating web scraping, data cleaning, and Excel report generation using Pandas, processing 100–500 records daily.
- Improved data accuracy and processing reliability by automating repetitive tasks and dynamic web interactions, eliminating manual data-entry errors.

Projects

Electricity Market Data Automation | Python, Selenium, Pandas, Excel

June 2026 – July 2026

- Designed and implemented a Selenium-based browser-automation pipeline to scrape live electricity market data from the NSE and MCX exchanges on a daily basis.
- Handled dynamic web elements, pagination, and inconsistent page structures to ensure consistent, reliable data extraction without manual intervention.
- Engineered data cleaning and transformation workflows using Pandas to convert 100–500 raw records daily into structured, analysis-ready datasets.
- Automated generation of formatted Excel reports summarizing daily market trends, cutting manual reporting time by an estimated 2+ hours per week.

Positions of Responsibility

Plinth 2026 – Annual Tech Fest, LNMIIT

2026

Member, Sponsorship Team & Public Relations (PR) Team

- Supported sponsorship outreach by approaching companies for partnerships and sponsorships.
- Promoted the tech fest through student outreach and public relations activities.
- Encouraged participation from students across multiple colleges in technical events.

Achievements

- JEE Main 2024:** Secured **97.2 percentile**, placing among the **top 2.8%** of candidates nationwide.
- LeetCode:** Solved **400+ DSA problems** spanning arrays, trees, graphs, and dynamic programming.
- Competitive Programming:** Regular participant in coding contests and algorithmic problem-solving.
- AI/ML Projects:** Built real-world automation and AI/ML projects using Python, Selenium, and Machine Learning.

Education

The LNM Institute of Information Technology, Jaipur

2024 – 2028

Bachelor of Technology (B.Tech.) in Computer Science and Engineering
